UNFINDABLE ONE OF A KIND

At Via Asuncion 6, just a few meters from Corso Unione Sovietica, near the Faculty of Economics and Commerce, we offer an extraordinary panoramic penthouse, featuring brightness, privacy, and large spaces for a result that is difficult to find on the market.
The property enjoys excellent exposure with open views of the Turin hills and is distinguished by the large terraced balconies that run along the house, creating a natural extension of the interior spaces.
Located on the 6th and top floor, it offers a versatile layout comprising: entrance hall, living room with kitchenette, two bedrooms and bathroom as well as a cellar.
The property needs renovation, except for the windows and doors, which were recently replaced.
An exclusive solution for experiencing Turin from above, surrounded by light and an unparalleled hilltop view without sacrificing the convenience of the city's main services and transport links. A truly unique opportunity.
