At Via Magenta 51, right near the border between Turin's two most desirable areas-City Center and Crocetta-this unmissable apartment, completely renovated in 2019 with high-quality finishes, is located on the first floor of a truly elegant building with an elevator. The apartment comprises an entrance hall, a spacious and bright living room with a designer kitchen and access to a balcony overlooking Via Colli, two bedrooms, the master bedroom with an en suite bathroom and access to a balcony overlooking an internal courtyard, a convenient storage room, and a guest bathroom. Its proximity to amenities, schools, the train station, and the metro, the difficulty of purchasing property in this highly sought-after area, where there is high demand but little supply, and the very low costs make this property truly unmissable. A cellar in the basement completes the property.
